

Cut and glue the "Action Cube"

Make a fun action cube, toss it and do the activity in lands on.

1. Cut out the cube template along the dashed line.
2. Bend along the red lines to the uncolored side of the template.
3. Add glue or tape where marked. Glue the vertical ends together, then glue the horizontal ends together in a cube shape.
4. Wait for it to dry.
5. Play with friends, classmates, and parents. Toss and do exercises!

Tip:
If you don't have a printer, trace the template onto a blank sheet of paper from your computer screen.

Helpful even for parents who work a lot at the computer!
